Death of Washington Irving. The telegraph brings the unwelcome news that WASHINGTON IRVING, one of the most genial and gifted of American authors, died at his residence, near New York, on Monday evening last. Mr. Invivo had attained to three score and ten years; and leaves behind him a world-wide and unsulfied reputation.

Preparations for the Execution. Governor Wise is busy at Charlestown, superintending, in person, the preparations for hanging OLD BROWN. The gallows will be surrounded by several cordons of F. F. Should any attempt be made to rescue the prisonor, the fifteen hundred troops have all orders to fire upon poor, old, broken-hearted "Ossawatomie!" Oh! "Chivalry," where is thy blush?

The Gwalt Eagran.—The recent trip of this famous ressel to Southampton, showed that she rolls in a heavy sea like other vestels. On the 5th, during the trip, the chairs and tables began to be unsteady, to reed to and fro like a drunken man, and he at their wide ends. Then the crockery forlowed, and cuys, saucers and dishes rushed furiously to destruction against the panity walls, and were dashed to piccealike a potter's vessel: About 5 ordock in the afternion a giant wave came surging on towards the bows, and struck the Great Estatem with a local hour, sending its green waters in a heavy lump clear over the forward butwarks, and drenching the men on deck. It was also proved by this trial that the Great Estatem will require these hundred tons of roal per day to make her go at the rate of fifteen and a-balf knots an hour.

Indeas Belle.—Our dry goods boys on the street were somewhat startled yesterday by the appearance of a young Indian girl of singular beauty of figure and features, and dress, and up to a point of aboriginal magnificence. Her shawl, of fine texture, was plated with high colors and streaming with ribbons—Pendants glittered from her ears. Charms broidered leggins fell gracefully over the neatest and timest of moccasins, shining with beads. Her face, figure and step would have marked her a queen. A loaf of bread with beaus. Correspondence of the Madison Journal.

Milwatker, Nov. 23.

Editors Journal—I have been looking among the business houses of this city, and particularly the following:

One of the most perfect business houses in the State, or the country anywhere, is that of Nazro & Co. In every department and in all its arrangements, everything is in the most complete order and system; and this act is remarked by all old eastern dealers who examine the establishment; so that it is worth the while of country dealers to call there and buy one good bill of goods, just to see the heanty of the establishment Missrs, N. & Co. probably do a much more extensive business in the Hardware line, than any house west of Euffalo. See their advertisement in another column.

Brown's Execution.

New York, Nov. 29—3 P. M.

The Herald's Harper's Ferry correspondent referring to the execution of Brown, says the most stringent regulations have been adopted in regard to the presence of civilians. All applications for passes for civilians to attend within the military lines are refused by the Governor, on the ground that it would consider the military programme. He said that civilians would not under any circumstances be admitted within the military lines, the outer one of which would be nearly a mile from the scalfold.

LATEST NEWS!

BY LAST NIGHT'S REPORT New Counterfeits.

PHILADELPHIA, Nov. 29—9 P. M.
This morning counterfeit notes of denominations of fifty and one hundred and fifty dollars of a very dangerous character on the Philadelphia Bank have made their appearance. The counterfeit one hundreds are printed in blue and dated January 1st, 1858; of the grouping notes of this date made character. of the genuine notes of this date and charac-ter but few are in circulation. There are no counterfeit hundreds dated May Ist., 1859, so that notes of this date in circulation appear to be good. The counterfeit fifties are printed some in black and others in blue and dated Feb. 1st., 1859. There never was any genuine fifty dollar issue of that date. There are also fifties printed in black dated May 2d, 559. The detectives have the matter in hand.

The detectives have the matter in hand, and are busy searching out the parties who have got out the counterfeits. It is conjectured that these admirably executed counterfeits have been very suddenly put into circulation in the Western States, and they have been sent on here for exchange in large quantities. Just as suddenly they have been scattered all around the business portion of the city, and have deceived the very best judges of paper money in the community.

The notes are entire counterfeits, probably the best ever executed, and every bank in the city is believed to have been victimized to a greater or less amount. One large private banking establishment on Third Street, this morning received \$3,000 of the spurious this morning received \$3,000 of the spurious notes from New York, and they had no sus-picion of their being bogus, until they were offered to the Philadelphia Bank for deposit. oriered to the Philadelphia Bank for deposit. The best judges can scarcely discriminate between the good notes and bad. A very large amount of them have been tastened on the business community of Philadelphia, and it is probable that they have been pushed off freely in the northern and southern cities, as well as in the west.

Death of Kit Carson Contradicted. Washington, Nov. 29—9 P. M. Several military companies passed through Washington this morning, on their way to Charlestown. They are expected by the evening train. Every mail brings advices of the formation of additional companies in that State, and the Government is constantly receiving applications for arms. stantly receiving applications for arms.

Washington Matters. WASHINGTON, Nov. 29-9 P. M. The Navy Department has received despatches from Commodore Porter, giving full particulars of his recent dealings with Govparticulars of his recent dealings with Gav-ernor Pesquiera, at Guaymas. They are in accordance with facts as recently published. It is not known, however, how far Captain Porter's conduct will be justified by the Administration, as it does not seem to be clear as yet that he had a right to demand that the acting consul—Alden—should be recognized in that capacity.

Gold Discovered in Missouri St. Louis, Nov. 29—9 P. M.

JERONE BONAPARTE, of Baltimore, who recently returned to the United States, has refused the dignity of Senator of France offered to him by his father, Prince Jerome, in order to induce him to remain in France. Mr. Bonaparte preferred the simple title o American citizen to that of Senator of France. After the efforts made by the Ameri-can branch of the Bonapartes to obtain recognition as legitimate members of the Imperial family, the news of this refusal will

create some surprise.

Тик Вовтов Transcript corrects an error in its report of the speech of Ralph Waldo Emerson, at the Fraternity lecture. It says that it stated he said, referring to the probable execution of John Brown, that his death would "make the gallows as glorious as the cross." The words of Mr. Emerson were: "Look nearer, at the saint, now in prison awaiting his martyrdom, who, if he shall suffer, will make the the gallows glorious, like the cross."

THE SENTINEL.

DAILY, TRI-WEEKIY & WEEKLY RUFUS KING, EDITOR. WEDNESDAY MORNING, NOV 30, 1859.

The Sentinel Auswered. On the first page of our paper this morning will be found a communication from a German, in reply to the Sentinel's charge, that the Protestant and Catholic Germans voted against Lion Silveronanon necount of lubbeing a Jew. The author of this communication, himself a Catholic, is one of the most intelligent men of this city, and is well posted in regard to the views of his countrymen on this as well as on other political questions.—Netts, of yesterday.

The News' anonymous correspondent is certainly not as good authority as the central organ of the Democracy of Wisconsin, which surely would not hazard such a charge without ample evidence of its trath. But if it be a slander, we respectfully suggest to the News and its correspondent that they direct their batteries at their political yoke-fellow, the Patriot, which is respon.

As for Mr. SILVERNAN'S defeat, the writer in the News thus accounts for it :

The nomination of Mr. Silverman was one that never ought to have been made; it was regarded by the Germans as an insult to their name, and therefore receive by them with the deepest indignation. When it reach Miwauker, mobody would, adonly could, believe and from that unfacely moment the confidence to the democratic party was slaken. It was a deed that, as every honest, sincere, welfancaning democratic and would have, probably, to be abouted by the 'timu detion' of the other good, and popular, and trustworthy candidates. And the fear was but too well founded, we are taughtly the crucing readity. It was no pain full too humilating, for the Germans to see thetisely represented by such a "moral character." No wonder that the Catholics, and Protestantant Indie's monitory countrymen, that the Germans to see the policy of the Germans and policy to the policy class and policy to the policy.

"Honor to whom Honor."—The battle is over in Wisconsin, for this fail, the Sham Democracy are routed, and Republicans are rejoiding over their glarious and beneficial triumph. But, it is not well, in the honor is mainly due. Amid the rejoidings over our success, let us pay our tribute of graineds to the Republican Daily Fress of Wisconsin, which, by its unwearded exertions, so largely contributed to the resett. We cannot inake separate mention of each paper, but we may say that to the Madison Journal, the Milwaukee Scattled and Free Democrat, and to the Janesville Grandte, the prople of the State owe a debt of gratitude for their services in the past campairan, which they cannot soon repay. They were all admirably conducted, all defined effective service, and the people whose best interests they protected and subserved would confer up at themselves a real and lasting boundt by at once douting the subscription list of each. It is a duly Republicant owe to their principles to see these able journals well sustained. We trust the Republicans of 'Old Waltworth' will perform their share of that duty.—White water Register.

We are already indebted to them for a very liberal share of patronage; and, indeed, we may say the sam-thing for the Republicans of the State generally. They have given the Sentinel a large and steadily increasing circulation and have, in various ways, signified their approbation of its course. But the first duty of the Republicans of Walworth, as of other counties, is to foster and sustain their local press, of which the Whitewater Register is so excellent a representative. That attended to, we should be proud to see the Sentinal stand next in their confidence and favor.

ITALIAN OPERA.—Why Mr. Strakosch went to Europe after young, fresh voices, while he had Adelina Patti in his own family, must ever remain a mystery; why he brought home Grescimano and Speranza, when one of the most charming singers of the time was already here, is still more unexplicable. Here is a young girl, only seventeen, beautiful, graceful, dramatic, and with a voice remarkable for every quality necessary in a great prima donna; seventeen, purity, truth of tone, clearness, fexibility; a soprano sfogato, capable of taking the highest notes written for singers of that class, with an amount of power wonderful at her age. parity, truth of tone, clearness, fexibility; a soprano sfogato, capable of taking the highest notes written for singers of that class, with an amount of power wooderful at her age, and cultivated already to an extent that renders her singing acceptable to even fastidious ears. GOV. SEWARD'S MOVEMENTS .-- The Auburn Gov. Seward's Moviments.—The Auburn Union gays: Senator Seward, at the date of the latest advices from him, was at Vienna on his way home from Palestine. He returned from the sea port of Jerusalem to Alexaudria, in the United States ship Macedonia, and from thence to a port of debarkation for Vienna in an Abstrian vessel, which honored him by displaying the American flag. His health has been excellent even in Egypt, during the unhealthy season. Upon leaving Vienna he expected to visit Turin and Genoa, and return again to France by the Mediterranean.

Patti has, of course, not yet acquired artistic perfection, nor is her voice yet entirely developed; its volume will increase, its lower notes become more definite and passionate, and her execution will be more finished and brilliant; but we have never assisted at a debut, which gave equal promise with that of last night, which gave so much more than pronise, which occasioned such absolute gratification.

Everything conspired in favor of the young singer; her captivating person, her brilliant black eyes, and rich brunette complexion, her girlish form, her charming manner, heightened the effect of the nusical talent she displayed, and quite carried away the andience. At her first entrance upon the stage the applayed, and quite carried away the andience. At her first entrance upon the stage the applause began, and demonstrations of delight continued till the close of the opera. The debutante was called out seven times during the evening; was showered with a perfect storm of flowers, garlands, wreaths, bequets and baskets were thrown to her, and her success was pronounced. She bore her blushing honors meekly; accepted the applause, but like a true artist, never once interrupted the business of the stage, or distanted the its discovery of the flagstones of the madent Via, those which were perhaps stained by the blood of our Saviour. He writes that our own are far superiority of the same in the royal dock. rior to any he has yet seen in the royal dock-yards, a fact that experience has hitherto am-ply demonstrated. This is all very well, but experience has also demonstrated that an unexperience has also demonstrated that an unfortunate want of capacity for stowage connects itself with our superiority in speed. It is a poor loast which satisfies with a couple of days' less sailing in a voyage half around the world, and the stowage of half a cargo. The clipper fever has subsided on this account more than anyother. Our fast sailing American Ocean Steamers, too, have never been able to take anything like the cargoes of those of the Cunard line, which spend a few hours more on their Atlantic passages. We have the recollection of one small steamer.

We have the recollection of one small steamer, nearly loaded, taking off the whole full cargo of a first-class American steamer, and bring-ing it to this country along with its own. So fast sailing is not either a safe or profitable description of sailing, let Donald AlcKay's opinion be what it may.

A Correction.—The Boston Transcript cornets its report of Mr. Emerson's late lecture in the Fraternity Course in Boston. Mr. Shanley satisfactorily established the fact that no insurmountable engineering obstacles existed to prevent the opening up of this navigation, and Mr. Clarke's more minute labors have confirmed this, and have proted, ceases to exert into minorace on the Mediterranean and Black Sea ports. Odessa, as we anticipated, has somewhat abated the high range of prices, the best Polish wheat now being only quoted at 44s per or, but this rate is still impracticable for profit in the United Kinedom.

In New York, after some decline from the law acutations for breedstiffs, there has been

A Practical Joker.

From "Leaces from an Actor's Note Book," by Geo Vandenhaff. There was a low comedian, familiarly called Dick Hoskins, whom I occasionally encountered at several of the small country theatres in the North of England, and who was an inveterate and practical joker on the stage. He was always very well behaved with me; but when he came in contact with a tragedian for whose talents he entertained Integration of patients. Experienced nurses are constantly employed to attend all patients at the Ours. Dr. Seelby is the attending physician, whose trentations unequaled in the entire west.

So, after answering Hamlet's onestion uestion"How long will a man lie in the earth er

Dick proceeded in due course to illustrate bis answer by Yorick's skull; and taking it up, he said, in the words of the text—
"Now, here's a skull that hath lain you in the earth three-and-twenty years. Whose do now think it was 2! do you think it was?"

"Nay, I know not," replied Hamlet, in J. A. BENEDICT, his sepulchral, tragedy tone. "This skull, sir," said Dick-pursuing the text thus far, and then making a sudden and most unlooked-for alteration— "This was Doctor Bank's skull !"

SIGN OF THE WHITE BEAR.

Of course the house was in an uproof of laughter and confusion. The victimized tragedian stamped and fumed about the stage, as well he might, exclaiming, "Yorick's, sir, Yorick's Proposetor of the work state and confusion."

This was too much; this was the last straw on the tragedian's back! He jumped into the grave, selzed the (very) low-comedian by the throat, and a most fearful contest, never before—or since, I hope—introduced into the play, cusued, in which Dick held his own bravely, and succeeded at length in overpowering, in a double sense, the worsted tragedian, whom he held down in the grave with one hand, while he flourished "Doctor Bank's kull" in triumph above his head!

Dialogue at an Intelligence Office between a Lady seeking "Help", and a Girl.

Lady seeking "Heip" and a Girl.

Few American women enjoy robust health, and even in the humbler walks of society, almost every family is obliged to maintain one or more female domestics. But when in search of "help" at the intelligence office, the lady would seem to have exchanged places with the servant, by whom she is often subjected to an impertinent criticism as to her style of living and all her family affairs. The New York Herald gives the following as a specimen of a dialogue which occurred at an intelligence office in Sixth Avenue:

Lady—Your name is Margaret, I believe. Do you understand plain cooking?
Cook—Yes'n should think I did; that's my business mem.

MILLER WEATHER.—There was alight frost lust hight, but it was nothing like that of Smoday night, and to-day the air is quite mild with a bright sky and a light West breeze. It is not improbable, now that the first "cold snap" has ended, that all the propellers expected from the lower labor may be able to get have ond return be fore the closing of the Straits—we hope so at least. THE STEAMSHIP MILWAUGED did not arrive to-day, saving got aground in the river at Grand Haven last night, as we learn by a despatch to the agent, Mr GRAMAM. The Cuyahoga took over the necessary tackling to get her off, and she will probably be here

it her usual time to-day. THE ECHOOSER MAY QUEEN bound from this port to Oswego with a load of grain, went ashore in Saginaw Bay during one of the recent gales, and, together with her cargo, will probably prove a total loss. The May her cargo, we promote prove a colar loss. The may Queen was canned by Mr. Carrington, of Oswego, who bought her at me acction sale here a couple of weeks ago, for \$2,550 and loaded her himself. We understand that the vessel and cargo were both fully insur-ed-the latter in the N. Y. Mercantile and Brooklyn

The Properties. Huntur arrived from Collingwood, about 3 o'clock Monday eve'g, with merchandize for this port and Chicago. She was detained by heavy weather. There are two feet of snow on the ground at Col. OF A lingwood, and the people have been enjoying fine sleighing for the past two weeks.

Bigmaster, The schooler W.a. Field, bound from Eric to this port with coal, was struck by the gare about 1 o'clock Friday morning, when about 20 miles this side of the Maritons. Her jib-boun, forecast head, foretopmast and maintopmast were carried away, and a falling spar struck one of the men, mancel W.a. froey, on the head, giving him an unity blow, and cutting quite a hole in his head,—Chicayo Prees & Tribuns of secterable.

A New Stramme.-The Detroit Telliane says: A New Stramma—the betted Triance says.

Capt. Word's new steamer, the Consider, arrived here
yesterday afternoon from Newport. She is a load of
superfor model and great speed, and well adapted for
the route their intended for. She is expected to ply
between this city and Port Huron, making daily trips. The tag Dawson has returned to Malden, not having succeeded as yet in certing off the sohr. Theo, Perry, achieve at Point au Peles. She doubtless will make another attempt as soon as the weather subdues.—Be-
